

SPOT

THE *DIFFERENCE*

The fitness industry holds high standards for commercial grade fitness equipment. F1-Recreation Certified Pre-Owned products are rebuilt to meet these demands.

Our Certified Pre-Owned process ensures your machine looks, feels and performs like new.

4 REASONS WHY YOU SHOULD CHOOSE...

CERTIFIED PRE-OWNED EQUIPMENT

Huge savings of **more than 50%** for a commercial grade piece of equipment.

1

2

A **rigorous remanufacturing process** that allows the machine to perform like new.

Customise equipment to your **preferred colour and branding.**

3

4

Peace of mind with **12-months** of warranty coverage on all parts & labour.

5 STEP

REMANUFACTURING PROCESS

1. Disassemble and Diagnose

Each product is completely dismantled and undergoes an extensive inspection by our certified technicians.

2. Grinding

Important parts of the machine, such as the steel frame, are put through a grinding process. This strips the machine of rust and grime.

3. Sanding

This step removes dirt and polishes metallic surfaces. The steel is now prepared for the respraying process.

4. Respraying

The bare steel frame is primed, and then painted in multiple customisable coats - A fresh new look with a durable finish.

5. Assemble & Test

Inspection complete, components cleaned, and parts replaced, the entire unit is then assembled. One final round of testing means that the machine is now ready for its next owner.

LEASE OUR CERTIFIED PRE-OWNED EQUIPMENT

HERE ARE 6 REASONS WHY YOU SHOULD:

1. Flexibility

No financial figures required for approval.

2. Extended Warranty

Parts and labour covered throughout the operating lease term.

3. Regular Equipment Updates

An opportunity to upgrade every five years.

4. Tax Incentives

Payment is fully tax deductible.

5. Product Support Lifeguard

Service calls every 3 months to ensure the equipment is in perfect operating order.

6. Budgeting

Avoid unplanned equipment repair expenses.

**LET US
GIVE YOU**

**PEACE
OF MIND**

In the F1 Recreation Certified Pre-Owned Leasing program, we take care of repairs and parts replacements. Managing your gym is now easier than ever before.

**SAVE
MONEY**

We will handle all repairs & maintenance. No more worrying about outsourcing for spare parts.

**SAVE
TIME**

**SAVE
ENERGY**

Life Fitness equipment uses 52% less energy than competitor's equipment.
